THE LEASING FOUNDATION

FUTURE LEADERS

A unique, world-class leadership programme that nurtures and supports next generation leaders in developing visionary and strategic competencies, achieving excellence, and acting with clarity, courage, and integrity.

“

The Foundation's Future Leaders programme provides an excellent opportunity to engage in a range of unique learning experiences. Gaining valuable insight from leaders in the industry and being able to network with other future leaders are the highlights of this innovative programme.

”

AMANDA SCOTT
RBS, FUTURE LEADER

The **Leasing Foundation Future Leaders** is a programme of development that identifies, nurtures and supports a network of exceptional people who are the future leaders of the industry.

During the 12-month programme, participants explore how to connect strategy to purpose, how to identify, nurture and create excellence and how to act imaginatively and inclusively.

Participants work together in a **learning set** where they can draw on each others' experiences and insights, benefit from **personal executive coaching**, attend **knowledge-sharing, networking and leadership development** sessions, and gain visibility from being part of a high-profile industry-led programme.

Participants are recommended by sponsors from their organisations. They are individuals who have the potential to assume leadership positions and who will most benefit from the opportunities provided by the programme.

On graduation, participants become members of our growing and influential alumni community and are offered Fellowship of the Leasing Foundation.

For sponsors, the opportunity is to access world-class leadership development at a fraction of the cost of commercial leadership training. The fee for the programme is **£3,750**. This funds delivery of the programme by The Leasing Foundation, a modern non-profit industry organisation dedicated to developing the next generation of business finance professionals.

THE NEXT PROGRAMME STARTS **NOVEMBER 2018**.
